[VIDEO] Hōkūle‘a crew and UH researchers explore Great Barrier Reef

The University of Hawai'i is an education partner in Hōkūle‘a's [Mālama Hōnua Worldwide Voyage](#), which will cover 27 nations through June 2017. HIMB research professor Ruth Gates joined the crew in Australia for its recent Great Barrier Reef dives. "When we were out on the Great Barrier Reef, the coral has so many different forms and shapes," said Gates.

Plants may run out of time to grow under ongoing climate change

A key potential “benefit” of global warming—namely, that plants at northern latitudes will thrive in a warmer world—is challenged by a new study released by University of Hawai‘i scientists.

Curriculum helps fathers gain skills and happiness

Just in time for Father’s Day, Selva Lewin-Bizan of the Center on the Family at CTAHR released the preliminary results of an evaluation of a fatherhood program conducted in Hawai‘i, aimed at improving parenting skills, knowledge, attitudes and family relationships.

Fast-fill hydrogen fueling station enables zero emission transportation

HNEI helped develop a state-of-the-art fueling station at Marine Corps Base Hawai‘i to support a fleet of GM Equinox Fuel Cell Electric Vehicles leased by the Office of Naval Research.
